E-SAFETY RULES FOR STUDENTS UNDER 18

We expect students to use the internet safely and legally while they are at the school.

When using online devices, you should **NOT**:

- Put online any text, image, sound, or video that could upset any other students or members of staff at the school.
- Give out your own personal details, such as mobile phone number or personal e-mail address, on social media.
- Hand out any passwords to online accounts, and make sure that you keep your personal data safe.
- Search for, download, upload or send out any material that could be illegal or upsetting to other people.

Please be careful when searching the Internet, and if you are unsure about the safety of a website/link, please do not click on it. We strongly advise you to use anti-virus software to protect your computer from viruses and hackers.
